

# HOME ENERGY AUDIT

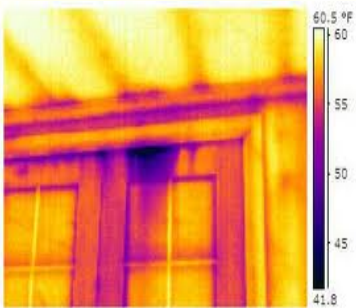

The East Grand Forks Water and Light now offers subsidized Home Energy Audits to those interested in identifying what measures may be taken to make their home more energy efficient. The audit will show the home owner problems that may, when corrected, save you, the customer, significant amounts of money over time.

We will send a Certified Home Energy Auditor to your home that will use a variety of techniques and equipment to

determine your energy efficiency level. In addition to doing an evaluation of your home, the auditor will perform a blower door test that measures the extent of leaks in the building envelope and an infrared scan, if you choose.

A standard Energy Audit including a blower door test costs \$200. Since we believe this audit to be of

great value to our customers the Water and Light will pay half of this cost for you so the audit **will cost you only \$100**. An audit adding an

infrared scan costs \$300, but as a customer of the Water and Light you **will only pay \$150**.

# HOW IT WORKS

The East Grand Forks Water and Light has contracted with Home Energy Science to do our energy audits. After we receive your request for an Energy Audit, one of their representatives will contact you to set up an appointment.

A home energy audit lasts about 1.5-2 hours. Your auditor will analyze your utility bills, discuss any of your specific concerns with you, and examine the following areas of your home:

- Furnace & Air Conditioner
- Insulation
- Air leaks
- Water heater
- Refrigerator, freezer, range and other appliances

After the audit is performed, you will be mailed an Energy Audit Report giving you the results of your energy audit with some things that the auditor found that would be recommended to make your home more energy efficient.

Remember that we have many Energy Efficiency Rebates that can assist in the cost of making some of those improvements:

- Residential Weatherization Rebates
- Appliance Rebates
- Compact Fluorescent Bulb Rebates
- Central Air Conditioner Tune-Up Rebate

Go to [www.waterandlight.info](http://www.waterandlight.info) for more information.

# SIGN UP FOR A HOME ENERGY AUDIT
